Brexcel Joe M. Orias

Junior Software Engineer

Antipolo, Rizal, Philippines brexcel14@gmail.com +63 915 463 4639 (WhatsApp) github.com/brixcel brexcel.vercel.app

SUMMARY

Computer Engineering student graduating in May 2027 and software engineer trainee at Egoist Labs. I build full-stack web apps with React, TypeScript, Node.js and PostgreSQL, and I set up the CI/CD that ships them. Looking for a junior software engineer role.

EXPERIENCE

Software Engineer Trainee · Egoist Labs — Sep 2026 – Present

- Wrote the frontend deploy workflow for **Learning Platform** in GitHub Actions: format check, lint, typecheck and tests gate every build before it deploys to Cloudflare Pages with Wrangler.
- Reworked **Capability Studio**'s deploy workflow into separate production, development and feature environments.
- Both pipelines send `main` to production and `dev` to a dev site, and give every pull request its own preview URL; superseded runs cancel themselves.

PROJECTS

Synctask · Full-Stack Developer — synctask-proj.vercel.app

React · TypeScript · Next.js · Node.js · Express · PostgreSQL · Prisma · Docker

- Task management platform where users create tasks from plain-language prompts with AI.
- Board, list, calendar and analytics views, plus a command palette, notifications and subtasks.

UrsacHub Social · Lead Developer — Team project

Laravel · PHP · Firebase · Tailwind CSS · JavaScript

- Led the architecture and full-stack build of a campus social network: feed, posts, likes and comments, organization pages and role-based login.
- Built real-time student-to-student chat.

DSA Workbench · Lead Developer — ursacdsa.vercel.app

JavaScript · HTML · CSS

- Interactive visualizer for 8 data structures (stacks, queues, linked lists, AVL trees) built for URS Antipolo, showing memory and pointer changes step by step.

UrsacHub · Front-End Developer — ursachub.onrender.com

Laravel · PHP · MySQL · Bootstrap · Tailwind CSS

- Built the front end of a campus platform with a merchandise shop, news and events, and a student organization directory.

Photo Booth · Solo — simple-photobooth.vercel.app

React · Vite · Tailwind CSS

- Browser photobooth with countdown capture, 3-, 4- and 6-photo layouts, stickers and high-resolution strip downloads.

EDUCATION

BS Computer Engineering · University of Rizal System, Antipolo Campus — Expected May 2027

SKILLS

Languages	TypeScript, JavaScript, PHP, SQL, HTML, CSS
Frontend	React, Next.js, Vite, Tailwind CSS, Bootstrap
Backend & data	Node.js, Express, Laravel, PostgreSQL, Prisma, MySQL, Firebase
DevOps & tools	GitHub Actions, Cloudflare Pages, Wrangler, Docker, Git, pnpm
